## MANAGEMENT REPORT

### YEAR 2019

São Leopoldo, March 30, 2020

Dear Shareholders,

The management of Taurus Armas S.A (Taurus), in compliance with the legal and statutory provisions is pleased to submit to you for your analysis the Management's Report and the Financial Statements of the Company, with the Independent Auditors' Report for the year ended December 31, 2019.

The Company's operating and financial information, except as indicated otherwise, are presented based on consolidated numbers and accounting practices adopted in Brazil are considered and international standards in compliance with International Financial Reporting Standards (IFRS) and pronouncements issued by CPC applicable to its operations. All the comparisons take into account the year 2018, unless otherwise indicated.

#### MESSAGE FROM THE BOARD

Dear Shareholders,

We completed the second year of our management at Taurus in 2019, in which we celebrated the 80th anniversary of the Company, satisfied in seeing our work present sound and sustainable results. This was a remarkable year for Taurus, which I can consider as the year of the "**Taurus Firearms era**".

Our net revenue grew 18%, a performance that reflects the achievement of consumer confidence and brand credibility. We recorded an EBTIDA growth well above the average recorded by Brazilian industries for the year: 62.2% over 2018, when this indicator had already been very good. This positive result shows that we implemented the right strategy of conquering new markets and developing new products, in addition to solidifying our management policy, based on **robust production processes, logistics and total focus on quality**. These are our differentials and they mirror our strategic tripod – production stability, reliable products and productivity, coupled with cost management – which, in turn, the client perceives as **fast delivery, assured quality and competitive price**.

Considering only our net revenue from firearm sales in Brazil, we grew 25.5% in the year in which the domestic market was opened to any foreign brand, due to the relaxation of the rules for the acquisition of firearms in the country. If Taurus had not regained its credibility, changes in legislation would have benefited competition, which did not happen since we have

*products with better quality and more competitive prices than competitors. This can be demonstrated by the fact that Taurus is the fourth best-selling brand in the United States, the world's largest consumer market for firearms.*

*Our ability to generate cash was instrumental to keep our financial commitments. We spent the year 2019 without any overdue financial obligations and, still, contradicting the expectations of many, we paid the first "wall" of the reprofiling of debt with the syndicate of Taurus creditor banks. And we went further. We were also able to invest in the development of 50 new products, expanding our portfolio with 400 new SKUs. We made all of this without having to dispose of the assets made available for sale, since the market was not favorable for the conclusion of such disposals in 2019.*

*We surpassed 1.2 million firearms produced in the year. Taurus differentiates itself from its competitors in the industry in that it operates in four different segments, producing revolvers, a segment in which we are the largest manufacturer in the world; pistols, with the fourth best-selling brand in the United States; tactical firearms (rifles and submachine guns); and firearms for sport hunting. In 2019, we produced more than 5,000 firearms every day, maintaining the quality in each piece produced. This was possible due to our robust production process, which gives us operational stability.*

*If all these achievements were not enough, we went further. Still in 2019, we opened a plant in the United States, doubling our production capacity in the most competitive market in the world; we concluded the agreements for the creation of a joint venture in India, a country with a population of over 1.3 billion people, the largest and fastest growing consumer market in the world; and we won two recognition awards from the specialized magazine Guns & Ammo - 2019 best buy with the G3 pistol, and handgun of the year with the TX22 pistol, in addition to the Golden Bullseye 2019 of best hunting firearm of the year, awarded by the NRA (National Rifle Association), with the revolver Raging Hunter.*

*In a year of so many achievements, we had the pleasure of celebrating 80 years of Taurus history in November, with a major event at the Company's headquarters. And finally, ending this year 2019 so positive for Taurus, we recorded a net income of R\$ 43.4 million, reversing a seven-year trend.*

*I would like to thank all our employees, dedicated professionals committed to our mission statement: COMMITMENT WITH EXCELLENCE.*

Salesio Nuhs

CEO

\* Ebitda and Ebitda Margin adjusted in 4Q18 excluding extraordinary non-recurring expenses related to legal advisory and claims of court settlement signed in the USA ("Burrow Case")

Note - Ebitda is not an indicator used in accounting practices. Its calculation is presented in item "Ebitda" of this report.

### PROFILE

In October 2019, Taurus completed 80 years of operation. The Company is focused on the production and trading of small firearms, sold to over 100 countries, with three brands: Taurus, Heritage and Rossi.

The largest manufacturer of revolvers in the world and the fourth best-selling brand in the North American market, Taurus has two industrial plants that operate based on a robust industrial process, ensuring quality and productivity: in Brazil, in the city of São Leopoldo, state of Rio Grande do Sul, and the new unit in the USA, in Bainbridge, Georgia, officially opened in early December 2019, after the closure of its activities in Florida.

The Company also operates in the production and sale of MIM (Metal Injection Molding) parts, with production mostly for its own use, as well as sales to third parties.

Based on new products' development protocols and manufacturing based on lean manufacturing process, Taurus launched 50 models and 400 SKUs in the last two years, publicizing new products in several exhibitions in Brazil and abroad. The entire line of light firearms has been updated in accordance with new development protocols.

### OPERATING PERFORMANCE

In 2019, the Company's total production reached approximately 1.2 million firearms, of which 889 thousand were produced in the Brazilian plant, an industrial unit that presented a sequence of expressive productivity gains in terms of firearm/employee/year in recent years. Between 2014 and 2019, this productivity indicator increased almost 3 times, reaching 432 firearms/employee in 2019. The evolution took place especially in recent years, after the improvement of the industrial process, as well as investments made in the development of new products and technologies, based on the restructuring effort based on sustainable profitability, in accordance with Taurus' global strategic planning.

Currently, considering the Company's new industrial unit in the State of Georgia and the plant in Rio Grande do Sul, Taurus has the physical structure to produce up to 1.8 million firearms per year, equivalent to more than 5,000 firearms per day.

Production of firearms and productivity – Brazilian Plant

*Production record in 2019, with continuous and significant productivity gains over the years*

The operational restructuring carried out at the Brazilian plant, which involved the adoption of efficient and robust industrial processes, is also being implemented in the new industrial unit in the USA. During the second semester of 2019, production from the old plant located in Florida was transferred to Georgia, a unit officially opened in December 2019, with all production lines already in operation. The new plant doubled Taurus' installed firearm production capacity in the USA, from 400,000 to 800,000 firearms/year, and brought fixed cost reductions of around R\$ 4.2 million per year. The new operating and management model, with the review of all processes, is being adopted at the North American unit, as it occurred in Brazil, with the support of the consulting firm Galeazzi & Associados.

In 2019, **firearm market in the US** was very competitive for the industry, and sales in commerce did not accelerate. The firearms purchase intention index in that country – NICS – remained practically stable (+ 0.6%) compared to the year 2018. Nonetheless, Taurus sales in the USA increased 11.7% in relation to the previous year, which indicates that the brand is expanding its share in this market.

The Company's releases, with products that incorporate innovation and quality with an affordable price, have been well accepted by North-American consumers. An example of this improvement was the awards that Taurus firearms received in 2019, such as the ones by the specialized magazine Guns & Ammo: G3 pistol – 2019 best buy and TX22 pistol – handgun of the year; as well as by the NRA (National Rifle Association): Raging Hunter - Golden Bullseye 2019 award for the best hunting firearm of the year.

In the **domestic market**, increase of 29.4% in sales volume in the year in comparison with 2018, reflecting the resumption of credibility and admiration for the brand, based on efforts made to take care of quality, to review production processes and to launch innovative products. The Brazilian market showed resumption of activity level in the year, both in terms of

institutional acquisitions and mainly individual purchases, the later represented by acquisition of firearms by police officers, magistrates, and CAC's (hunters, shooters and collectors) for private use. During 2019, it was possible to notice changes in Brazilian consumer behavior, with an increase in the number of people interested in buying firearms at distributors and an increase in the share of firearm sales to CAC's in total domestic sales.

Taurus has devoted commercial efforts to expand its operation to **other international markets (in addition to USA)**. Regarding volume, these sales increased 59.1% in 2019 compared to the previous year. Based on a robust compliance work to meet requirements defined by international buyers, the Company has been successful in expanding its markets, with highlight to sales made in Asian and African countries in 2019 such as the sale of 20,000 units of TS9 Pistol to Philippine police and 10,000 units of the ST12 rifle to the police in Bangladesh. Similarly, increase in sales to other countries, such as South Africa and Guatemala, and resumption or opening of new markets are relevant in the year, even if less expressive in terms of absolute volumes and values such as Azerbaijan and Bulgaria.

### ECONOMIC FINANCIAL PERFORMANCE

#### Net operating revenue

Taurus recorded net revenue of R\$ 999.6 million in 2019, exceeding the performance obtained in 2018 by 18.3%, and thus maintaining the upward trend observed in the previous year. The highlight in terms of evolution was the local market, accounting for revenue of R\$ 187.4 million, which represents a growth of 24.4% in relation to the previous year, mainly due to the increase in revenues from firearm sales.

Revenue from the sale of the Company's M.I.M. in 2019 reached R\$ 10.4 million, or 1.0% of total revenue. This segment was fully operated by the subsidiary Polimetal Metalurgia e Plásticos Ltda. As of December 31, 2019, in line with its strategy, the Company decided to partially spin-off its subsidiary Polimetal, followed by merger by the parent company Taurus of the spun-off portion that is intended to meet internal demands, while operations aimed at third parties remained in the subsidiary. In addition to tax benefits (approximately R\$ 170 million from taking advantage of the negative basis of tax losses for use in calculating Income Tax and social contribution and accelerating the use of ICMS tax credits by Polimetal at Taurus), the operation provides increased synergy and productive and administrative efficiency, improved internal controls, as well as cost and expense reduction.

Net operating revenue  
R\$ million

The maintenance of another consecutive year of increased revenue is an indicator that the Company's broad restructuring, both in operational and management terms, has been positive for businesses.

In the **firearms segment**, net revenue in 2019 was R\$ 989.2 million, 18.7% greater than the result of the previous year. Growth occurred both in domestic market and in North-American market revenues, as well as in export to other countries. Taurus has been presenting quality and innovative products to the market. The Company's broad product portfolio and the renewal of the firearms line, with the launch of 50 models in the last two years (17 in 2019), have attracted consumer interest in Brazil and abroad, contributing to the increase in volume and average price, thus providing positive revenue growth. In 2019, sales of new products accounted for more than half (52.3%) of revenue from sales of Company's firearms.

### FIREARMS - Net operating revenue

According to Taurus' largest market, firearm sales in Brazil are directed to the Armed Forces, police, their members and CACs (collectors, snipers and hunters). In 2019, revenue of firearms in **the local market** totaled R\$ 179.9 million, an increase of 25.5% in relation to the previous year. In addition to the resumption of institutional purchases (police and Armed Forces), the Company recorded an increase in the volume of individual sales. The greater strength of the local market can be seen with the success of promotions aimed at CAC's held in the second semester of the year. In the "Semana do Brasil" (Brazil Week) promotion, between September 6 and 15, the entire line of firearms was offered with a 20% discount for orders placed on the Taurus website. This initiative had an excellent response from the consumers, generating sales of over 12,000 units in the period. Between November 25 and December 3, the "Black Week" promotional sales exceeded 4,000 units.

In the **USA**, increased sales, the higher added value portfolio, and the exchange-rate change gain when accounting for these sales in local currency led to a 17.5% increase in revenue for 2019, despite the fact that this market remained very competitive throughout the year. In 2019, the Company recorded a net revenue of R\$ 736.4 million from firearm sales in the USA, which accounts for 73.7% of its total revenue for the year. Taurus has been successful in its strategy of establishing itself as a brand that incorporates innovation, quality and reliability, while offering consumers an option with attractive price. This positioning has allowed the Company to expand its share in the North American market.

The commercial work carried out aiming to expand firearms exports to **other countries** is part of Taurus' strategic planning to increase the market for its products and reduce the degree of dependence on the North American market. Accordingly, an agreement was signed with a steel company in India in January 2020 to build a plant in that country, aiming to expand Taurus' operations in the region (more information about the joint venture can be found in the item "Subsequent events" in this report). In 2019, exports to over 23 countries accounted for revenue of R\$ 72.9 million, with emphasis on sales of ST12 rifles to the Bangladeshi police and sales of TS9 pistols to the Philippine police, international bids won by Taurus after demanding quality and reliability tests performed.

### Gross income

The Company has been maintaining its focus on quality and innovation, coupled with the cost management process, which aims to ensure business profitability. The model adopted involves a careful control over purchases and close monitoring of the turnover of inventories of raw materials and products, as well as the qualification of suppliers, aiming to guarantee the volume and quality of materials, at an appropriate cost.

With revenue increasing every quarter of the year in relation to the same periods of 2018, and the continuity of the tight cost management process, gross income in 2019 totaled R\$ 340.6 million, the best gross result in the history of Taurus, generated almost exclusively by the firearms operation. The performance of 2019 surpassed by 10.7% that recorded the previous year, which had already shown a strong evolution in relation to 2017. In the last three years, between 2017 and 2019, the Company's gross income grew almost 3.6 times. The increase in gross income was followed by the maintenance of gross margin at a level above 30%, reaching 34.1% in 2019.

The new level of the Company's gross income demonstrates the correctness of the restructuring carried out, with the adaptation of processes and of the product mix, which involved actions such as the eliminating models with negative margins, the redesign of components and the investment in research and development.

### Operating expenses

**Operating expenses** in 2019, of R\$ 235.0 million, decreased 10.1% in relation to the previous year, accounting for 23.5% of the net operating revenue for the year, evidencing the operating profitability gain achieved over the last three years, from 2017 to 2019, as per the chart above. In addition to the positive result of restructuring and review of administrative processes regarding expenses, two main factors explain the decrease in operating expenses in the last year, namely: base increased in 2018 due to non-recurring expenses, totaling R\$ 37.1 million, and extraordinary revenues classified in "other operating revenues/expenses" in 2019.

Operating expenses (R\$ million) and its share in the net operating revenue

\* 2018 includes R\$ 37.1 million of non-recurring extraordinary expenses referring to lawsuit in the USA ("Burrow Case").

**General and administrative expenses**, the most representative group among the Company's expenses, totaled R\$ 142.2 million in 2019, representing a 3.0% decrease compared to the previous year, contributing to reduce the share of total expenses over net revenue. It is worth remembering that, in 2018, said expenses were pressured by non-recurring disbursements of R\$ 15.6 million related to the judicial agreement signed by the Company in the USA (Burrow Case), partially accounted for in this group of accounts in the last quarter of the year. Disregarding said extraordinary expenses, the account would have increased by 8.5% for the period, an evolution even lower than the 18.3% increase in revenue recorded in 2019.

**Cost of sales** totaled R\$ 122.7 million in 2019, an increase of 26.4% compared to the last year. Part of this increase is related to the variable expenses that accompany the increase in sales, as well as greater marketing efforts, with actions geared toward reinforcing brand recognition in Brazil and abroad, and other extraordinary expenses.

The **other operating revenues/(expenses)** account recorded a positive balance of R\$ 32.6 million in 2019, compared to a negative balance of R\$ 14.7 million calculated for the previous year. The result for 2019 incorporates extraordinary revenue related to the recovery of taxes from previous years, excluding ICMS from the calculation basis of PIS and COFINS. On the other hand, R\$ 21.5 million of non-recurring expenses related to the Burrow Case were recorded in this account in 2018.

### Ebitda

With operational cash flow measured by EBITDA of R\$ 128.0 million and a 12.8% margin in 2019, Taurus completes its second year of positive performance for this indicator, with eight consecutive quarters of positive EBITDA, except for 4Q18, when extraordinary and non-recurring expenses related to a judicial agreement signed in the USA (Burrow Case) put pressure on the result. Said performance shows that the Company assumed a new standard of operating performance after the restructuring carried out, which has been providing greater operational efficiency and cash generation capacity.

The result obtained in the EBITDA of 2019 is higher than that of 2018, the year in which the Company had already presented a positive operating performance, of 62.2%, or, considering the adjusted EBITDA without the non-recurring expenses recorded in that year, of 10.3%. The level reached is compatible with that recorded by international companies in the industry, consolidating the reversal of the negative performance found in this indicator in 2017 and in previous years.

EBITDA (R\$ million) and EBITDA margin

\* Adjusted Ebitda in 2018, excluding R\$ 37.1 million related to non-recurring expenses of a legal agreement.

\*\* 2017 - Disregards the result of the motorcycle helmet operation.

### Ebitda calculation – reconciliation in accordance with ICVM 527/12

| R\$ million   | 2019         | 2018         | Change %         |

*Ebitda (earnings before interest, taxes, depreciation and amortization) is not a financial measurement according to BR GAAP, International Accounting Standard and IFRS and should not be considered on its own as an operating performance measurement or alternative to operating cash flow as liquidity measurement. This indicator is a managerial measurement, presented to offer additional information on operating cash generation. Other companies may calculate Ebitda differently.*

### Financial income (loss)

Concurrently with the positive evolution of operating indicators, measures taken with the objective of enabling the recovery of healthy results and the improvement in indicators are showing their positive results in financial terms. With the increase in financial revenues couple with the decrease in financial expenses in relation to 2018, there was a 56.2% decrease in the net balance of the account for the period. In 2019, the net financial result was negative by R\$ 80.5 million, while it totaled a negative amount of R\$ 183.6 million in 2018. This evolution is related to the agreement signed in July 2018 with the union of lending banks, which reduced the Company's cost of debt by 57.7%.

Taurus' financial expenses are mainly influenced by the effect of the changes in the BRL against the USD, which presented an average depreciation of 14.5% in 2018 and of 7.9% in 2019, since the majority of the Company's indebtedness (81.1% as

of December 31, 2019), and therefore also the charges for this debt, are quoted in US dollars. The fact that most of Taurus' revenue – 81.8% for the year 2019 – also comes from exports creates a natural hedge for the exchange-rate change.

### Net income

Based on the improvement in results and operational and financial indicators stemming from the restructuring process implemented at Taurus, the Company recorded an income before income tax of R\$ 25.2 million for the year 2019. Considering the negative result of R\$ 4.2 million from the helmets operation, classified as discontinued operations, and the positive result recorded as Income Tax and Social Contribution of R\$ 22.5 million, the final result in 2019 was a net income of R\$ 47.6 million

This performance highlights the advance obtained from measures taken to guarantee activities' sustainable profitability is evident by reversing the negative net income (loss) that the Company recorded in the last seven years.

### INDEBTEDNESS

At the end of 2019, Taurus recorded gross debt of R\$ 901.7 million. As of July 2019 (3Q19), the Company initiated the payment of the first installment of the principal of the banks' syndicated debt, in the amount of R\$ 74.5 million. With greater capacity to generate cash from its operating activities, even fulfilling its financial obligations, Taurus ended the year 2019 with a cash position and interest earning bank deposits of R\$ 36.0 million, an amount R\$ 7.4 million or 25.9% higher than that recorded as of December 31, 2018. Accordingly, net debt at the end of 2019 was R\$ 865.7 million.

| <i>R\$ million</i>           | 12/31/2019   | 12/31/2018   | Change %     |
|------------------------------|--------------|--------------|--------------|
| Loans and financing          | 97.6         | 103.7        | -5.9%        |
| Debentures                   | 13.3         | 9.5          | 40.0%        |
| Advance from receivables     | 73.5         | 48.5         | 51.5%        |
| Foreign exchange withdrawals | 78.2         | 43.8         | 78.5%        |
| <b>Short-term</b>            | <b>262.6</b> | <b>205.4</b> | <b>27.8%</b> |
| Loans and financing          | 577.4        | 627.9        | -8.0%        |
| Debentures                   | 61.6         | 75.6         | -18.5%       |
| <b>Long term</b>             | <b>639.1</b> | <b>703.6</b> | <b>-9.2%</b> |
| <b>Gross indebtedness</b>    | <b>901.7</b> | <b>908.9</b> | <b>-0.8%</b> |
| Cash and investments         | 36.0         | 28.6         | 25.9%        |
| <b>Net indebtedness</b>      | <b>865.7</b> | <b>880.3</b> | <b>-1.7%</b> |

In terms of maturity, the Company's debt is mostly of a long-term nature, a profile assumed since the conclusion of the bank debt renegotiation in July 2018. On December 31, 2019, 70.9% of total gross debt or R\$ 639.1 million, had long-term maturity.

Moreover, as Note to Financial Statements, out of the R\$ 262.6 million recorded in the short term at the end of September 2019, R\$ 151.7 million (or 57.8% of this portion of debt) are represented by discounts on receivables and foreign currency withdrawals, which can be rolled over. Even recorded in the short term, the agreement signed with creditor bank provides for automatic renewal at every maturity, with the possibility of settlement by 10/17/2022. Accordingly, the portion of debt that effectively matures in the short term represented 12.3% of total gross debt on December 31, 2019.

**Gross debt at 12/31/2019**  
**R\$ 901.7 million**

Taurus' debt is predominantly denominated in US dollars. As of December 31, 2019, the portion of total gross debt recorded in US dollars was R\$ 731.0 million, or 81.1%. Therefore, the quotation of the US dollar against the Brazilian real has a major influence on the Company's debt position. At the same time, as mentioned in this report in "financial expenses" item, Taurus has a natural hedge for this debt in foreign currency, given that most of its revenue – 81.3% in 2019 – also comes from sales abroad and, therefore, made in US dollars.

**Schedule of debt expiration**  
**Per Currency – R\$ million as at December 31, 2019**

## CAPITAL MARKET

Listed at Level II of Bolsa Brasil Balcão - B3, differentiated market segment where Companies assume additional commitments in terms of good corporate governance practices, Taurus' shares appreciated in 2019, as shown below.

During the year, the average daily volume of ON (TASA3) shares traded totaled R\$ 275.8 thousand with average of 2,593 deals concluded, while PN (TASA4) shares reached average daily volume of R\$ 1.6 million and average of 3,464 deals concluded. The market value at the end of the year was R\$ 482.9 million.

### Performance of shares and Ibovespa

|            | TASA3    | TASA4    | IBOV    | Market value      |
|------------|----------|----------|---------|-------------------|
| 12/31/2018 | R\$ 4.79 | R\$ 4.05 | 87,887  | R\$ 383.3 million |
| 12/31/2019 | R\$ 5.11 | R\$ 5.99 | 115,645 | R\$ 482.9 million |
| Change     | + 6.5%   | + 47.9%  | + 31.6% | +26.0%            |

### STATEMENT OF ADDED VALUE

In 2019, Taurus' activities generated added value of R\$ 497.0 million, 113.6% higher than the previous year. The value-added ratio in relation to gross revenue of R\$ 1,235.0 million for the year was 40.2%. In other words, of each R\$ 1.00 received by the Company in 2019, R\$ 0.40 were distributed among the company's agents as indicated in the chart.

R\$ million

|  | 2019           | 2018         |

Distribution of added value  
R\$ 497.0 million

### SUBSEQUENT EVENTS

#### Signing of the joint venture agreement in India

On January 27, 2020, the Company released a Material Fact informing that its Board of Directors signed, at a meeting held on January 22, a definitive agreement for the establishment of a joint venture with Jindal Group, a company with annual sales exceeding US\$ 24 billion and 200,000 employees, the India's largest steelmaker and one of the 10 largest producers in the world.

The joint venture has a 51% interest of Jindal Group and a 49% interest of Taurus, and will set up a firearms plant in India for the production of rifles, pistols and revolvers for the civil, public security and military markets. The conclusion of this agreement is an important step in Taurus' global strategy and will place the company in a prominent position in the global firearms market.

#### Quality Award 2019 - Apimec/SP

The public meeting held by Taurus in August 2019 with analysts, other investment professionals and investors in general was selected among the 10 best of the year. In 2019, approximately 5,400 investment professionals participated in the 54

APIMEC SP Meetings held by publicly-held companies. Each meeting was measured, immediately after it was held, using an evaluation questionnaire addressing aspects related to the quality of the information presented and the dynamics of the meeting. At the end of the year, the meetings with the 10 best scores were selected.

### **Potential impacts of COVID -19**

The Company is monitoring the possible risks inherent to Covid-19 that may affect its activities. Currently, there has been no major change registered in relation to our suppliers, and no high risk of significant economic damage for Taurus has been quantified.

The reliance on imported products is low, and foreign suppliers of more relevant components and inputs can also be replaced by domestic suppliers. For items considered critical, the Company has inventories that meet its needs for a period of about 5 months.

Regarding exports, that account for most of the Company's revenue, Taurus is working based on the planned schedule for the delivery of its products, especially in the North American market. In the domestic market, there has been no change in the behavior of clients and distributors so far.

Several measures are being adopted to reduce as much as possible the exposure to the potential contagion of our employees by Covid-19, such as the suspension of almost all business trips, the entrance of suppliers at the plant, the holding of presential meetings and receiving visitants in Taurus facilities. The Company is communicating and stressing the importance of the adoption of preventive hygiene habits and health care by its employees and family members.

The analysis performed is based on the evidence found to date, considering the risk tracking and monitoring and the evolution of the Covid-19 dissemination. However, future events or conditions may cause the Company to review its position and/or affect the normal continuity of operations at its units.

### **EXTERNAL AUDIT – CVM INSTRUCTION 381/2003**

KPMG Auditores Independentes provides external audit service related to the examination of the financial statements of the Company and its subsidiaries for the year 2019. Furthermore, this company provided Taurus with tax compliance advisory services in 2019, in addition to an evaluation of the net assets of Polimetal Metalurgia e Plásticos Ltda. to be transferred, at book values, to the parent company. The total fees for these additional services was R\$ 640,321.65, which represented approximately 84% of the remuneration related to external audit of the financial statements.

Taurus is very careful to avoid the existence of a conflict of interest, or loss of independence or objectivity of its independent auditors and has the practice of not access the services regarding any matter that may interfere in the audit of financial statements.

For the contracting of these additional services, KPMG Auditores Independentes presented the statement that these services do not affect the independence and objectivity required to perform the external audit services.

# **Taurus Armas S.A.**

## Notes to the financial statements

### **1. Operations**

Taurus Armas S.A. ("Company") headquartered in São Leopoldo/RS, a Brazilian publicly-held company for more than 30 years, and since 2011, ranked Level 2 in Corporate Governance of B3 (former BM&FBOVESPA) (trading symbols are FJTA3, FJTA4).

On June 29, 2018, the Annual Shareholders' Meeting approved change of trade name from Forjas Taurus S.A. to Taurus Armas S.A.

The Company operates in the segments of Firearms and Accessories and Metal Injection Molding (MIM), with two industrial plants, one in Brazil, located in the state of Rio Grande do Sul, and another in Miami, Florida, USA.

In Brazil, sales are directed to state, federal, civil and military police, in addition to the civilian market. Taurus is an accredited Strategic Defense Company and is permitted to supply products to the Brazilian armed forces.

Abroad, besides distributing products of the TAURUS and ROSSI trademarks produced in Brazil, the Miami unit manufactures models of TAURUS pistols and HERITAGE revolvers. Sales to the United States cover, mainly, the U.S. civil market and government bodies in the other regions.

In March 2018, Company Management assumed the commitment to dispose of the helmets' operation. To carry out this process, a specialized consulting firm was engaged. Due to the decision to sell the investment, it was classified as "held for sale" and accounted for according to technical pronouncement CPC 31 and IFRS 5 - Non-Current Assets Held for Sale and Discontinued Operations. The helmet operation has two production units, one in Mandirituba, Paraná, and another in Simões Filho, Bahia.

On December 3, 2018, production activities at the Simões Filho / BA unit were closed.

On April 12, 2018, the United States unit signed a memorandum of understanding with the Government of Georgia for the relocation of the headquarters of the North American subsidiary of Miami in Florida/USA to the city of Bainbridge, Georgia/USA.

This transfer aims to optimize production in the United States, in order to better serve local demand in terms of production volume, development of new products and improvement people's perception of the Taurus brand. It is also expected that this change will result in cost reductions, with the concession and state government grants, consequently increasing the profitability of the operation.

The new plant was inaugurated on December 5, 2019, with the production lines already operating. The migration of activities to Georgia has completed in late 2019, when it became fully operational.

### **Economic /Financial Balance**

On July 18, 2018, management concluded the process of rescheduling and formalization of debt agreements with the Bank Syndicate (Banco do Brasil, Banco Santander, Banco Itaú and Banco Bradesco), as well as the process of rescheduling of its 3rd public issuance of debentures with Haitong Bank. The terms of the Operation include the extension of the maturity term of debts with Creditors in the approximate amount of US\$ 162 million. The total term for payment of the operations is now 5 (five) years, with grace period for payment of principal and interest in year 2018. The amortization of principal and interest will be made in monthly payments, starting on January 21, 2019. The costs of the operation were Libor

## Taurus Armas S.A.

### Notes to the financial statements

Month + 3% p.a. for operations in U.S. dollar and CDI + 2% for the 3rd Issuance of debentures.

The operation is backed by the following real guarantees: (i) Lien of all quotas of the companies Taurus Blindagens Ltda. and Taurus Blindagens Nordeste Ltda. ("Chattel Mortgage"); (ii) 2nd degree mortgage of 02 properties located in Mandirituba/PR, and 02 properties located in Porto Alegre, RS and 1st degree mortgage of 01 property located in São Leopoldo, RS ("Mortgage"); and (iii) lien of credit receivables derived from total funds object of possible sale of quotas object of the Lien and Mortgage, as well as rights inherent in the title of the Company's restricted account to be opened with the purpose of receiving the funds.

As additional option to assist in the economic and financial rebalance, the Company maintains its strategy: (a) divestitures of non-core assets, namely: the helmets operation (historically advantageous and profitable), whose decision of sale and authorization for selling efforts were made by the Board of Directors in March 2018, in addition to a large land in an affluent residential region of Porto Alegre, where the former facilities of the Company were located and; (b) strong restructuring plan, already in course and conducted by specialized consulting firm already contracted.

The aforementioned restructuring plan, which is already in progress, presented positive results throughout 2018 and with substantial improvements in 2019. The company expects that the it continues to bring efficiency gains in 2020. The plan is divided into 4 areas: i) Renegotiation of Debt; ii) Operating Efficiency, iii) Commercial Efficiency, and (iv) Evaluation of Results. Below is a summary of the actions:

#### I - Debt Renegotiation (completed):

The debt rescheduling was conducted through direct and extrajudicial renegotiation with creditors, including the following activities:

- Preparation, analysis and validation of operating and financial projections;
- Preparation of negotiation strategies in different scenarios;
- Negotiation with committee of creditors through meetings and presentations;
- Proper formalizations of the process.

Together with the Bank Syndicate, in the rescheduling the Company obtained a reduction of around 50% of the interest rate of loans.

There has been a significant change in the amortization schedule, in which the first payment of principal would be in 2018 and after quarterly amortizations, with the rescheduling, there was a grace period for the payment of principal in 2018 and as of 2019, and payments will be on monthly basis. The table below shows the percentages of amortizations.

| AMORTIZATION SYSTEM BEFORE RENEGOTIATION   | AMORTIZATION SYSTEM AFTER RENEGOTIATION  |
|--|--|
| <b>PPEs AND DEBENTURES BANKS<br/>BRADESCO, BRASIL, SANTANDER, ITAU, HAITONG.</b> | <b>PPEs AND DEBENTURES BANKS<br/>BRADESCO, BRASIL, SANTANDER, ITAU, HAITONG.</b> |
| 23.07% OF THE DEBT IN 2018   | 10.71% OF THE DEBT IN 2019   |
| 30.76% OF THE DEBT IN 2019   | 15.90% OF THE DEBT IN 2020   |
| 30.76% OF THE DEBT IN 2020   | 2.80% OF THE DEBT IN 2021  |
| 15.41% OF THE DEBT IN 2021   | 70.59% OF THE DEBT IN 2022   |

In the rescheduling with Banco Pine, the Company also obtained extension of term and reduction of rates. The characteristics of the rescheduling were different, since the Bank did not have funding (line abroad) to support the entire operation, thus at each maturity of Export

# **Taurus Armas S.A.**

## Notes to the financial statements

pre-payment ("PPE") an Advances on Exchange Contracts ("ACC") operation will be released in the amount of the portion with initial term of 180 days and automatically renewed at each maturity for other 180 days. In the third and fourth maturities, the renewal will correspond to 99.30% of the value of the ACC operation, in the fifth maturity, it will correspond to 99.10% of the value of the ACC operation, in the following maturities it will correspond to 97.20% of the ACC operation and up to October 17, 2022, all the ACC operations will be settled. Prior to the rescheduling, the rate of the operation was 112.00% of CDI, for the new operations renegotiated under ACC, the rate will be 5.50% p.a. + exchange-rate change.

We point out that in the renegotiations, in addition to the extension of debt, there will be a projected reduction of more than R\$ 120 million charges on such indebtedness during the period of 5 years.

In 2019, the company had paid 10.17% of the negotiated debt, demonstrating that the improvement in its results is being reflected in cash generation.

The negotiated debt presents extraordinary amortizations with the sale of assets or the subscription of shares. In these situations, the amounts are allocated to an escrow account, where once the amounts have been transferred to, the Company no longer has any management for transactions. Only the trustee can transfer the amount, solely and exclusively to the amortization of renegotiated contracts with the banks' union.

## **II - Operating efficiency**

On macro basis, revaluation of the Organizational Structure of the Company through analysis of activities and processes, Span of Control and average remuneration:

### **Stages concluded:**

- Realignment of the structure with the strategic purposes;
- Clear definition of metrics;
- Streamlining of the hierarchical levels for gain of promptness in decision making;
- Normalization of the areas so as to prevent conflicts and redundancies;
- Review of responsibilities and functions of each position;
- Revaluation of service levels;
- Development of a participatory environment proper to changes.
- Intelligent and long-lasting reduction of costs;
- Remodeling of the relationship with the other units of the Company.

### **Stages in progress:**

- Revaluation of outsourcing of non-core activities;
- Revaluation of the centralization of activities;
- Elimination of activities that do not aggregate value;
- Analyses of gains of efficiency in the processes.

On a specific manner, the operating planning and management will be segmented as follows with their respective action plans already in course:

### **Stages concluded:**

#### **Operating Master Planning:**

- Review the S&OP model;
- Revisit the production and inventory process, and logical model.

#### **Research and Development:**

## **Taurus Armas S.A.**

### Notes to the financial statements

- Identification of Capex needs;
- Integration with all the industrial units.
- Action schedule.

#### **Stages in progress:**

##### CGS - Cost of goods sold

- Analyze the evolution of Variable Costs and general manufacturing costs (GGF) to identify the main deviations and opportunities.

##### Operating Master Planning:

- Improve methodology of demand forecast.

##### Efficiency of the Operating Management:

- Review metrics, goals and routines of analysis of results of key indicators of the processes;
- Map critical points of improvement of each process and develop/ implement applicable corrective actions.

##### Losses of Materials (yield and scrap):

- Identify critical points of improvement and implement applicable corrective actions.

##### Tools used:

- Explosion of Ideas;
- Data analysis;
- Simulations of scenarios;
- Analyses of Cause/Effect;
- Compensation Matrix.

### **III - Commercial efficiency**

In order to capture higher gains of efficiency in the commercial area, three areas are being focused as follows:

#### **Stages concluded:**

##### Market analysis

- Reviewing the pricing model

##### Portfolio of products

- Analysis for streamlining of SKUs;
- Performance analysis of the categories of products;
- Definition of each category positioning.

##### Commercial Performance

- Assess the management model of sales routine;
- Restructuring of the monitoring model for attainment of goals.
- Revaluation and design of a variable remuneration program to the sales team.

#### **Stages in progress:**

##### Market analysis

- Mapping of sales channels and analysis of strategies per channel;
- Analysis of opportunities for reduction of the number of *Layers* and approximation of the point of sale.

# Taurus Armas S.A.

## Notes to the financial statements

### IV - Evaluation of results (in progress)

These initiatives aim to adjust the key processes of Taurus so as to increase the Company's profitability and competition.

Accordingly, with the definition of roles and responsibilities, performance metrics and a culture of discipline in the performance of action plans, the Company continues to take actions aimed at higher operating and financial efficiency, in order to cover the demand for its products, improve its margins, recover profitability and the balance of its cash flows.

Management evaluates that the set of actions related to improvement of above-mentioned operating efficiency, plus sales of non-core assets, capital transactions and the already perceptible improvement in operations performance will be sufficient to guarantee normal continuity of operations.

## 2. Presentation of information for the year

### 2.1. Preparation basis

#### a) Compliance statement

The individual and consolidated financial statements of the company were drawn up and presented in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and also in accordance with accounting practices adopted in Brazil (BR GAAP), considering Pronouncements, guidelines and interpretations issued by the Accounting pronouncements Committee (CPC), approved by the Securities Commission (CVM) and the provisions of Corporation Law.

#### b) Statement of the Board of Directors

The Company management states it has utilized all of the relevant information for its financial statements for the year ended December 31, 2019 and only them correspond to those of its management.

The issue of individual and consolidated annual financial statements was authorized by the Board of Directors on March 26, 2020.

### 2.2. Basis of consolidation

|   | <u>Country</u> | <u>Ownership interest</u> |         |
|---|----------------|---------------------------|---------|
|   |                | 2019                      | 2018    |
| Taurus Blindagens Ltda. *                 | Brazil         | 100.00%                   | 100.00% |
| Taurus Blindagens Nordeste Ltda. *        | Brazil         | 100.00%                   | 100.00% |
| Taurus Holdings, Inc.                     | United States  | 100.00%                   | 100.00% |
| Taurus Máquinas-Ferramenta Ltda. *        | Brazil         | 100.00%                   | 100.00% |
| Taurus Investimentos Imobiliários Ltda. * | Brazil         | 100.00%                   | 100.00% |
| Polimetal Metalurgia e Plásticos Ltda. *  | Brazil         | 100.00%                   | 100.00% |
| T. Investments Co. Inc.*                  | Panama         | 100.00%                   | 100.00% |
| Taurus Plásticos Ltda. *                  | Brazil         | 100.00%                   | 100.00% |

(\*) Presented interest represents the percentage directly and indirectly held by the Company in the capital of subsidiaries.

The process of consolidating the balance sheets and the result follows, by their nature, complemented by the elimination of the following:

- Shares of the parent company in capital, reserves and retained earnings of the consolidated companies;
- Balances of asset and liability accounts maintained between the consolidated companies;
- Balances of revenues and expenses from consolidated intercompany transactions; and
- Unrealized gains originating from transactions with investees recorded under the equity

# Taurus Armas S.A.

## Notes to the financial statements

method in the proportion of the Company's interest in the investee. Unrealized losses in the same way as unrealized gains, but only up to the point where there is no evidence of loss due to impairment.

### 2.3. Functional and presentation currency

The individual and consolidated financial information is being presented in Brazilian Real, functional and presentation currency of the Company and its subsidiaries headquartered in Brazil. The functional currency of the subsidiary Taurus Holdings, Inc., headquartered in the US, and controlled T. Investments Co. Inc., headquartered in Panama is the US dollar and its assets and liabilities are converted into Reais, marked at the exchange rate on date of the balance sheet, their results are converted to the monthly average exchange rate. Exchange differences arising from the translation process of foreign subsidiaries are reported in other comprehensive income and presented as shareholders' equity.

Transactions in foreign currency are translated into the functional currency of the Company at the current exchange rates on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into the functional currency at the exchange rate at that date. All differences are reported in the income statement.

## 3. Significant accounting judgments and sources of uncertainties about estimates

When applying the accounting practices, Management must make judgments and prepare estimates on book values of assets, liabilities, expenses and revenues that are not easily obtained from other sources. Estimates and respective assumptions are based on historic experience and on other factors that are considered relevant. The actual results of these book values may differ from these estimates.

Information regarding critical judgments referring to the accounting policies adopted which impact the amounts recognized in the individual and consolidated quarterly information and information on uncertainties, assumptions and estimates are included in the following notes: 9 - Clients (allowance for doubtful accounts), 10 - Inventories (Provision for inventory loss), 13 - Income tax and social contribution, 14 - Assets held for sale (impairment), 16 - Property, plant and equipment (Impairment), 17 - Intangible assets (Impairment), 23 - Provision for civil, labor and tax risks and 24 - Financial instruments.

### (i) Measurement of fair value

A series of Company's accounting policies and disclosures requires the measurement of fair value, for financial and non-financial assets and liabilities.

The Company established controls related to the measurement at fair value which includes the regular evaluation of significant non-observable data and evaluation adjustments.

When measuring fair value of an asset or liability, the Company uses observable data as much as possible. Fair values are classified at different levels according to hierarchy based on information (inputs) used in valuation techniques, as follows:

Level 1: Prices quoted (not adjusted) in active markets for identical assets and liabilities to which the entity may have access on the measurement date.

Level 2: Inputs, except for quoted prices, included in Level 1 which are observable for assets or liabilities, directly (prices) or indirectly (derived from prices).

Level 3: Inputs, for assets or liabilities, which are not based on observable market data (non-

# Taurus Armas S.A.

## Notes to the financial statements

observable inputs).

The Company uses level 2 information to measure fair value.

### 4. Significant accounting policies

The accounting policies and calculation methods used by the Company in the preparation of these Individual and Consolidated Financial Statements have been consistently applied by the parent company and its subsidiaries. These policies are the same when compared with the Financial Statements of December 31, 2018.

#### a) Financial instruments

##### (i) *Non-derivative financial assets*

The Company has the following non-derivative financial assets: cash and cash equivalents, interest earning bank deposits and escrow accounts, trade accounts receivable credits with related persons and other accounts receivable.

##### (ii) *Non-derivative financial liabilities*

The Company has the following non-derivative financial liabilities: loans, financing, non-convertible debentures, suppliers and other accounts payable. Such liabilities are initially recognized at fair value plus any transaction costs directly assignable. After initial recognition, they are measured at amortized cost using the effective interest method.

For accounting policy, the Company adopts the classification of interest paid as a financial activity, consistently in its Financial Statements.

##### (iii) *Impairment*

The Company and its subsidiaries assess at the balance sheet dates, whether there is any evidence that determines that a financial asset or group of financial assets is impaired. A financial asset or group of financial assets is considered impaired if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (known as a loss event) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets and can be reliably estimated.

#### b) New standards, interpretations and non-standard revisions

New standards or amendments and interpretations will be effective for the years started after January 1, 2019.

##### (i) **CPC 06 (R2) / IFRS 16 Leases**

CPC 06 (R2) / IFRS 16 introduces a single model of accounting of leases in the balance sheet to lessees. A lessee recognizes an asset of right of use that represents its right to use the leased asset and a lease liability that represents its obligation to make the lease payments. Optional exemptions are available for short-term leases and low-value items. The lessor's accounting remains similar to the current standard, that is, lessors continue to classify leases as financial or operating leases.

The standard is effective in years starting on or after January 1, 2019.

The Company evaluated impacts from adoption of new standard and effects initially estimated were not considered as significant.

##### (ii) **ICPC 22/ IFRIC 23 – Uncertainty over Income Tax Treatments**

# **Taurus Armas S.A.**

## Notes to the financial statements

Interpretation ICPC 22 clarifies how to apply the recognition and measurement requirements of CPC 32 when there is uncertainty over the tax treatments on profit. The Company's Management must recognize and measure its current or deferred tax assets or liabilities, applying the requirements of CPC 32, based on taxable profit (tax loss), tax bases, unused tax credits and determined tax rates, applying this interpretation. The interpretation was approved on December 21, 2018 and was enforceable starting on January 1, 2019.

### **(iii) CPC 50/ IFRS 17 – Insurance Contracts**

This standard will come into effect as of January 1, 2021 and will replace CPC 11 – Insurance Contracts, which maintain requirements of the current local rules. CPC 50 will provide a global and comprehensive model for accounting insurance contracts, in line with international accounting standards. The company's management believes that the adoption of this standard will not have a significant impact on the Company's Financial Statements.

### **(iv) Amendments to CPC 26 and CPC 23 – Definition of Materiality**

The amendments to CPC 26 and CPC 23 clarify the definition of materiality and align the definition used in the conceptual framework in other accounting standards. These amendments will come into effect on January 1, 2020. The Company's management understands that these amendments will not have a significant impact on the Company's Financial Statements, as it applies the technical guidance OCPC 7, which guides the disclosure of relevant information only.

## **5. Financial risk management**

The Company's risk management policies are established to identify and analyzed the risks that it faces, to define appropriate limits and controls of risks, and to monitor risks and adherence to the limits. The risk management policies and systems are reviewed frequently to reflect changes in the market conditions and in the Company's activities.

The Company is exposed to the following risks from the use of financial instruments:

### **5.1 Credit risk**

Credit risk is the possibility of a financial loss if a client or a counterpart of a financial instrument fails to fulfill its contractual obligations arising mainly from trade accounts receivable and investments of the Company. As regards financial institutions, the Company and its subsidiaries only conduct operations with low risk financial institutions, considered by the Management, as low risk institutions.

#### **Trade accounts receivable and other credits**

The Company and its subsidiaries adopt as a practice the analysis of the financial situation of their counterparties, as well as the definition of credit limits and permanent monitoring of open positions. About the Company's revenue, the sales are concentrated to Related Parties, Taurus International and Companhia Brasileira de Carthucos – CBC, with no concentration of credit risk with other customers.

Credit approvals are analyzed individually before the terms and the standard terms of payment and delivery of the Company are offered. This analysis includes external evaluations and, in some cases, bank references. Purchase limits are established for each client and represent the maximum outstanding amount for which credit approval is not required; these limits are regularly reviewed. Clients who fail to meet the credit limit established by the Company may only operate when there is a settlement of securities. For public bodies, the Company's management individually assesses the ability to pay and the bidding requirements for completion of the sale. The consolidated statement excludes transactions between related parties and, since these transactions are excluded, the

## Taurus Armas S.A.

### Notes to the financial statements

Company has no customers that individually represent more than 5% of sales.

When monitoring credit risk of clients, they are grouped according to their characteristics for credit facility, including if they are an individual or entity, retail, government agencies, geographic location, type of industry and previous financial difficulties.

In sales made to natural persons, the Company is able to anticipate part of the sale amount, and the billing and delivery of the product are only carried out if there is no default by the customer.

### Credit risk exposure

The maximum credit risk exposure on financial statement date was:

|  | Consolidated   |            | Parent company |            |
|--|----------------|------------|----------------|------------|
|  | Book value     |            | Book value     |            |

## 5.2 Liquidity risk

Liquidity risk is the risk of the Company encountering difficulties in performing the obligations associated with its financial liabilities that will be settled with cash payments or with another financial asset.

The Company and its subsidiaries monitor the requirements for operating cash flow and this excludes the potential impact of extreme situations that cannot be reasonably foreseen, such as natural disasters.

The contractual maturities of financial liabilities including payment of estimated interest are as follows:

|   | Consolidated<br>12-31-2019 |                       |                |                |                |          |
|---|----------------------------|-----------------------|----------------|----------------|----------------|----------|
|   | Book value                 | Contractual cash flow | Up to 1 year   | 1-2 years      | 2-5 years      | >5 years |
| <b>Non-derivative financial liabilities</b> |                            |                       |                |                |                |          |

### 5.3 Market risk

Market risk is the risk that alterations in market prices, such as exchange rates and interest rates, have in the Company's earnings, or in the value of its holdings of financial instruments. The objective of market risk management is to manage and control exposures to risks, within acceptable parameters, and at the same time to optimize the return.

The Company and its subsidiaries use derivative financial instruments and meets financial obligations to manage market risks. All of these transactions take place under guidance specified by Management.

#### (i) Currency risk (foreign exchange)

The Company and its subsidiaries are subject to currency risk in the sales, purchases and loans denominated in a currency other than the respective functional currencies of Company's entities.

### Sensitivity analysis

The probable base scenario for 2019 was defined through assumptions available in the

## Taurus Armas S.A.

### Notes to the financial statements

market (source: Brazilian Central Bank Focus), and sensitivity calculation considered the change, affected in balances due to the fluctuation between rates of the scenario foreseen for 2020 and those prevailing in 2019.

The sensitivity analysis also considered changes from 25% to 50% on exchange-rate change considered in the probable scenario.

| Currencies and ratios |           | Rate 2019     | Probable scenario | Possible scenario $\Delta$ 25% | Remote scenario $\Delta$ 50% |
|-----------------------|-----------|---------------|-------------------|--------------------------------|------------------------------|
| US dollar             | Write-off | <b>4.0307</b> | 4.5000            | 3.0600                         | 2.0400                       |
| US dollar             | Increase  | <b>4.0307</b> | 4.5000            | 5.1000                         | 6.1200                       |

| Other                                   | Dollar - USD | <b>(2,398)</b>   | (250)             | (680)          | (966)                                |

For the asset balances, an analysis was conducted considering a downturn in the foreign exchange rate and losses arising from a negative change in the currency, while for the liabilities balances, an analysis was conducted considering an upturn in the foreign exchange rate and the losses arising from a positive change in the currency.

#### (ii) Interest rate risk

The balances of instruments exposed to changes in interest rates are summarized below.

Income from short-term investments and financial expenses arising from the Company's loans and financing are impacted by changes in interest rates.

On December 31, 2019, the management considered the likely scenario for 2020 is a CDI rate of 4.50% and TJLP of 5.57%. The probable rate was then adjusted at 25% and 50%, as parameter for possible and remote scenarios, respectively. The scenarios below were

# Taurus Armas S.A.

## 5.4 Capital management

The management's policy is to maintain a solid base of capital for the future development of the business, adding value for shareholders, creditors and the market in general, by monitoring the returns on capital. However, the results of recent years have meant some deterioration in this policy, as shown below.

# Taurus Armas S.A.

## 6. Operating segments

The Company has four reportable segments represented by strategic business units, managed separately since they differ by products and services, technologies and marketing strategies. The other operations are aggregated in the "Others" segment, as they do not fall within the quantitative limits for segregated disclosure. The Company's reportable segment operations can be detailed as follows:

Firearms – the firearm production process, since is treated, primarily, as metalworking, and uses the following basic phases: machining (from machined and forged moulds by means of machining centers, milling, drill pressing and broaching, lathing, broaching since all the forging process and some machining operations are outsourced), Metal Injection Molding (MIM) (metal injection molded parts), finishing (polishing), heat treatment, surface treatment, final assembly, functional test, engraving and packaging; these operations are carried out by Taurus Armas S.A., and Taurus Holdings, Inc. and its subsidiaries.

Helmets – the helmet production process uses the following steps injection (from the Acrylonitrile Butadiene Styrene (ABS)), painting and finishing (from parts already injected through the manual and automated painting process), sewing (from fabrics, foam plates and polycarbonates, using cutting machines and sewing) and final assembly; these operations are performed by Taurus Helmets Ltda. (former Taurus Blindagens Ltda.) and Taurus Blindagens Nordeste Ltda.

Other - result of the MIM (Metal Injection Molding) segment - metal injection molded parts, (Polimetal Metalurgia e Plásticos Ltda.); hard trunks (Taurus Helmets Ltda.). It also includes expenditures with technical assistance and financial expenses with discontinued machinery operation in June 2012 and other operations as the manufacturing and sale of glasses and rendering of services. As these segments have been aggregated, they do not meet the quantitative thresholds for separate disclosure as a reportable segment.

Performance of each segment is quarterly evaluated based on the segment's earnings (losses) before income tax and social contribution, as included in internal reports, as Management believes that this information is more relevant for the evaluation of results from some segments related to other entities that operate in these industries.

The other segments of the Group have concentrated their sales in the domestic market and have widely distributed products throughout all regions of Brazil. The Company's sales and its subsidiaries do not have any restrictions and do not suffer concentration risk, characterized by a dependence on government agencies or any other client. Approximately 75% of consolidated revenues are directed to the American civil market, and are subject to that country's regulations.

## 7. Cash and cash equivalents

Cash and cash equivalents comprise cash balances and interbank funds applied, that is, redeemable within up to three months of contracting dates, without penalties for the Company and with low risk of change in their market value.

Financial investments are paid by the average variable rate of 94,80% of CDI at December 31, 2019 (from 86% to 98% of CDI as of December 31, 2018), being held as guarantees and international short and long-term contracts, and their redemption scheduled to take place in conjunction with their termination, presented in current and non-current assets based on their redemption provisions.

## 9. Clients

Trade accounts receivable are recorded at fair value and subsequently measured at amortized cost, less estimated expected losses.

The allowance for doubtful accounts was calculated at an amount considered adequate by the management to cover any losses arising on collection of accounts receivable.

## 10. Inventories

Inventories are shown at the lower of cost and net realizable value. The cost of inventories is based on the weighted average principle, and includes expenditure incurred in acquiring the inventories, production or conversion costs (based on normal operating capacity), as well as other costs incurred in bringing them to their existing location and condition.

The provision for inventory losses is recorded for products with low turnover and items that are sold below the formation cost.

## 11. Recoverable taxes

On June 20, 2008, Taurus Armas S.A filed a lawsuit seeking the non-incidence of the ICMS (tax on the circulation of goods and services) in the PIS and COFINS calculation base, based on the unconstitutionality of the matter, since the ICMS, as an indirect tax, does not make up the Company's revenue.

In March 2017, the Supreme Federal Court decided that the ICMS, since it does not compose the gross revenue of the Company and its subsidiaries, should be excluded from the PIS and COFINS calculation basis, judging it to be unconstitutional.

On April 1, 2019, the lawsuit resulted in an recoverable tax credit of R\$ 37,2 million reais and monetary correction of R\$ 27,7 million reais.

## 13. Income tax and social contribution

The income tax and social contribution of the year, both current and deferred, are calculated based on the nominal rate of 15% plus a surcharge of 10% on taxable income in excess of R\$ 240 for income tax and 9% on taxable income for social contribution on net income, and consider the offsetting of tax loss carryforward and negative basis of social contribution, limited to 30% of the taxable income. For companies that calculate income tax and social contribution based on estimated profits, the same rates as above are used but on percentage of revenue of 32%. The rate of income tax is 21% for the US subsidiary.

## Notes to the financial statements

|                          |                 |                 |          |          |
|--------------------------|-----------------|-----------------|----------|----------|
| Other                    | -               | (307)           | -        | -        |
| <b>Total liabilities</b> | <b>(10,263)</b> | <b>(20,804)</b> | <b>-</b> | <b>-</b> |

Current and deferred taxes are recognized in income (loss) unless they are related to the business combination, or items directly recognized in Shareholders' equity or in Other comprehensive income.

Deferred taxes are recognized in relation to the temporary differences between the book values of assets and liabilities for accounting purposes and the related amounts used for taxation purposes. A deferred income tax and social contribution asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable income will be available against which the unused tax losses and credits can be utilized.

Deferred tax assets and liabilities are offset when there is a legal enforceable right to set off current tax assets and liabilities, and the latter relate to income taxes levied by the same tax authority on the same taxable entity.

Deferred income tax and social contribution assets are reviewed at each reporting date and reduced when their realization is no longer probable.

| Changes in deferred taxes                     | Consolidated  | Parent company |
|---|---------------|----------------|
| Opening balance of deferred taxes, net        | 55,970        | 44,653         |
| Allocated in income (loss)                    | 34,440        | 15,788         |
| Allocated to shareholders' equity             | (4,447)       | 4,887          |
| <b>Closing balance of deferred taxes, net</b> | <b>85,963</b> | <b>65,328</b>  |

The amount of tax losses and negative basis of social contribution on which deferred taxes are not recorded totaled R\$ 432,871. While in parent company, total amount of tax losses and social contribution negative basis were established as deferred taxes.

The main balances of tax losses and negative bases are recorded in the subsidiaries Polimetal and Taurus International.

## Taurus Armas S.A.

### Notes to the financial statements

The Company recorded its deferred tax assets only in the amount considered probable by means of projected future taxable income. If the expectation of future taxable income was greater, the amount to be recorded related to deferred taxes would also be higher.

Breakdown of the total calculation bases and the respective deferred tax assets that could be recorded:

The portion of the amounts not constituted is represented by the assets, since there is no grounded expectation of generation of taxable profits.

# Taurus Armas S.A.

## Notes to the financial statements

### 14. Assets held for sale

Non-current assets or groups (containing assets and liabilities) held for sale are classified as "held for sale" if it is highly probable that they will be primarily recovered through sales instead of the continuous use.

Assets or group of assets held for sale are generally stated at the lowest value between their book and the fair value less selling expenses.

Any impairment loss on assets over a group of assets held for sale is initially allocated to goodwill, and then to remaining assets and liabilities on a prorated basis. No loss should be allocated to inventories, financial assets, deferred tax assets, employee benefit assets and investment property and biological assets, which continue to be measured under the other accounting policies of the Group. Impairment losses determined in the initial classification as held for sale or distribution, and gains and losses from subsequent remeasurements, are recognized in profit or loss.

Once classified as held for sale, intangible assets and property, plant and equipment are no longer amortized or depreciated.

#### Reconciliation of book value

#### Buildings, land and improvements.

In 2016, Taurus Armas S.A. transferred the operation from the Industrial Plant located in the city of Porto Alegre/RS to the Industrial Plant located in the city of São Leopoldo/RS. In view of the foregoing and considering the terms of CPC 28 - Investment Property, the Company, at the level of the annual information, reclassified the items formerly classified as Property, plant and equipment to Investment Property.

In 2017, through approval of the Board of Directors, the sale and the availability for intermediation by market specialists were determined. Accordingly, these properties were reclassified to "Assets held for sale".

The fair value for the purpose of evaluating impairment loss was determined by independent external real estate appraisers, with appropriate and recognized professional qualification, and recent experience in the property location and category that is being appraised.

Location: Avenida do Forte, nº 511 - Porto Alegre (RS)

Industrial complex, not occupied, with 18,600.00 m<sup>2</sup> of built area in urban land of 29,900 m<sup>2</sup> of area.

### Notes to the financial statements

#### Assets held for sale - Helmets' operation

On March 27, 2018, the Board of Directors unanimously authorized the offer of the Helmets business – represented by Taurus Helmets Indústria de Capacetes Ltda (former Taurus Blindagens Ltda) and Taurus Blindagens Nordeste Ltda. – to the market.

The preparation of a schedule and sales efforts was the responsibility of a specialized firm, according to the proposal already accepted by the Company.

On December 31, 2019, the group of assets and liabilities held for sale was presented as the chart below and comprised the following assets and liabilities:

|   |               |
|---|---------------|
| Property, plant and equipment / intangible      | 21,018        |
| Inventories                                     | 14,938        |
| Trade accounts receivable and other receivables | 32,866        |
| <b>Assets held for sale</b>                     | <b>68,822</b> |
| Suppliers and other accounts payable            | 27,742        |
| <b>Liabilities held for sale</b>                | <b>27,742</b> |

The company did not identify any loss amounts to be recognized.

Profit or loss from transactions with assets held for sale are presented in note on operating segments (note 6).

## 16. Property, plant and equipment

Property, plant and equipment items are stated at historical acquisition or construction cost, net of accumulated depreciation and impairment losses.

The Company chose to revalue the fixed asset items for their deemed cost on the year opening date of the year 2009. The effects of the deemed cost, net of tax effects, increased property, plant and equipment with a contra entry in shareholders' equity.

The cost includes expenditures that are directly attributable to the acquisition of assets. The cost of assets built by the Company includes materials and labor, as well as any other costs attributable to bringing the assets to the location and condition requires for them to operate in the manner intended by management, costs for dismantling and restoration of the site where they are located, and loan costs on qualifiable assets for which their start capitalization date is January 1, 2009 or later.

Gains and losses on disposal of a property, plant and equipment item are determined by comparing the proceeds from disposal with the book value of Property, plant and equipment and are recognized net within "Other revenues" in the income (loss).

Depreciation is recognized in the income statement using the straight-line method over the estimated useful life of each part of an item of property, plant and equipment. The useful estimated lives for the current and comparative periods are as approximately as follow:

## Taurus Armas S.A.

### Notes to the financial statements

| Group                   | Useful life (in years) |
|-------------------------|------------------------|
| Buildings               | 27                     |
| Machinery and equipment | 15–20                  |
| Dies and tools          | 5–12                   |
| Furniture               | 10                     |
| Other components        | 5–6                    |

# **Taurus Armas S.A.**

## Notes to the financial statements

### Construction in progress

The balance of constructions is related to machinery and equipment still in the implementation phase and constructions in progress. These assets should come into operation during 2020.

### Guarantee

The Company uses its assets as guarantees for the funds obtained from financial institutions. Although most fixed assets are collateralized by loans and financing, and historically, the guarantees with assets have never been used. In 2019, the Company used the amount of R\$ 44,942 in guarantees (R\$ 46,551 as of December 31, 2018).

## **17. Intangible assets**

### Goodwill

The goodwill resulting from the acquisition of investments, after appropriate allocations, is included in intangible assets. They are presented in the parent company statement under the investment group.

Goodwill generated in business combinations are recorded in intangible assets and were determined in accordance with accounting practices in force at the time of each business combination, adjusted for the reclassification of certain intangibles. Goodwill is measured at cost, less impairment losses.

### Other intangible assets

Separately acquired intangible assets are measured at cost upon initial recognition, while the cost of intangible assets acquired in a business combination is the fair value at the acquisition date. The balances are presented net of accumulated amortization and impairment losses.

Development expenditures involving a plan or project aiming at the production of new products or substantially enhanced are capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and use or sell the asset.

The amortization of intangible assets, other than goodwill, is based on their estimated useful lives and is recognized in profit or loss under the straight-line method. The estimated useful lives for the current and comparative periods are approximately 5 years for system development and deployment costs.

On December 31, 2019 the Company carried out an impairment test of fixed assets.

We also clarify that the recovery of the book value of goodwill and intangible assets with indefinite useful life is assessed annually using the concept of "value in use" through discounted cash flow models of cash generating units.

### Impairment test for cash generating units containing goodwill

For impairment testing purposes, the goodwill is allocated to the Group's operating divisions, which represent the lowest level inside the Group, at which the goodwill is monitored for purposes of internal management, never above the Group's operating segments.

| Cash-generating unit | 2019   |
|----------------------|--------|
| Firearms             | 45,062 |

The recoverability test for CGUs mentioned above is performed annually based on the fair value net of sales expenses, which is estimated based on discounted cash flows. On December 31, 2019, the tests performed did not indicate the need of forming a provision for impairment losses on goodwill and intangible assets with indefinite useful lives, as well as on fixed assets.

### Main assumptions used for forecasting the discounted cash flows

The main assumptions used in the calculation of the recoverable value are the cash flow discount rate and growth rates. Assumptions adopted are as follows:

## Notes to the financial statements

|                      | Discount rate | Average growth rate |
|----------------------|---------------|---------------------|
|                      | - WACC        |                     |
| Cash-generating unit | 2019          | 2019                |
| Firearms             | 14.4%         | 5.4%                |

### Discount rate

The discount rate for CGU is represented by a post-tax rate based on US Treasury Bonds for 20 years, adjusted for a risk premium that reflects the risks of investments in equity securities and the systematic risk of the unit in question. The company estimated, based on management's experience with assets of this CGU, the weighted average of the capital cost of the industry in which such CGU operates, which was calculated based on a possible debt/shareholders' equity ratio of 20.25% for Firearms CGU at the market interest rate of 7.60%.

### Growth rate and perpetuity

The forecasts are in line with the Business Plan prepared by the Company's management. It is expected that the projected sales growth is in line with the curve observed in previous years, and in line with the economic growth of the country. After the projection period, we considered the growth and constant percentage of economic growth (growth in perpetuity).

In order to calculate the perpetuity, a nominal growth rate of 3.5% was used, in line with the long-term inflation expectation projected by the Brazilian Central Bank (BACEN) and macroeconomic indicators published in Focus report of BACEN, and in the Country Forecast report of Economist Intelligence Unit (EIU).

Loans and financing are guaranteed by promissory notes, interest earning bank deposits, fiduciary assignment of machinery and equipment, and real estate mortgages, quotas and collateral of subsidiaries. The sureties granted by the parent company and its subsidiaries are shown in Note 25 - Related parties.

Certain loans and financing agreements entered into by the Company and its subsidiaries contain restrictive covenants that limit certain corporate amendments, including: changes in the Company's direct or indirect control, reduction of the share capital of the Company and/or its parent company, distribution of dividends, payment of interest on own capital, or any other payments to shareholders by the Company and/or its parent company in the event of default of any of the obligations and reduction of the Company's equity capital. If the restrictions are not met, creditors may anticipate maturity.

### Covenants

As described in note 1, as of July 18, 2018, the new process of renegotiation of debts with the Bank syndicate was completed. The instrument, which was included in re-profile of debt process signed in December/2016, provides for the early maturity in cases of non-compliance of covenants that define, among other obligations: the maintenance of certain financial ratios, such as: net debt/adjusted EBITDA equal or lower than 13x in 2018, 8x in 2019, 7x in 2020 and 6x as of 2021, besides maintaining the Adjusted EBITDA/Financial expenses index equal or higher than 0.90 as of December 31, 2018 and 1.20x as of 2019.

Such indices are monitored by Management, as the contracts determine that the indices be measured annually. As of December 31, 2019, the Company has been complying with these requirements.

## 19. Debentures

The debentures issued by the Company in a single series, not convertible into shares, distributed in the secondary market through the National Debenture System, with restricted placement efforts aimed at 3rd issue aimed at banking institutions.

| Debentures    | Principal (R\$) | Issuing Date | Securities in the market | Financial charges       | 2019          | 2018   |

## Notes to the financial statements

### 23. Provisions for civil, labor and tax risks

Provisions are formed for all contingencies referring to lawsuits in which an outflow of funds will probably be required to settle the contingency or obligation and a reasonable estimate can be made.

Based on information from its legal advisors and analysis of pending legal proceedings, the Company recorded provision in an amount considered sufficient to cover estimated losses as follow:

|   |                  | <b>Consolidated</b>         |                   |
|---|------------------|-----------------------------|-------------------|
|   |                  | <b>12-31-2019</b>           | <b>12-31-2018</b> |
|   | <b>Provision</b> | <b>Judicial deposit (1)</b> | <b>Net</b>        |
| Labor                                     | 56,168           | (13,525)                    | 42,643            |
| Civil                                     | 32,252           | (491)                       | 31,761            |
| Tax                                       | 27,689           | (278)                       | 27,411            |
|   | <b>116,109</b>   | <b>(14,294)</b>             | <b>101,815</b>    |
| Classified in current liabilities         | 54,431           |                             |                   |
| Classified in the non-current liabilities | 61,678           |                             |                   |

|   |                  | <b>Parent company</b>       |                   |

## Taurus Armas S.A.

### Notes to the financial statements

the accounting practices adopted in Brazil do not require their calculation as shown below:

|       | Consolidated |        |          |        | Parent company |        |          |        |
|-------|--------------|--------|----------|--------|----------------|--------|----------|--------|
|       | 2019         |        | 2018     |        | 2019           |        | 2018     |        |
|       | Possible     | Remote | Possible | Remote | Possible       | Remote | Possible | Remote |
| Tax   | 58,429       | -      | 50,924   | 4,266  | 29,456         | -      | 24,788   | -      |
| Civil | 96,843       | 273    | 96,711   | 1,935  | 83,683         | 237    | 75,616   | 493    |
| Labor | 40,077       | 41,911 | 59,664   | 31,777 | 12,859         | 29,760 | 28,846   | 23,174 |
|       | 195,349      | 42,184 | 207,299  | 37,978 | 125,998        | 29,997 | 129,250  | 23,667 |

In addition to that, the Company has an amount equivalent to R\$ 145,713 in active claims, which are classified as contingent assets, and which are not recognized in the accounts.

#### **Sanctioning Administrative Processes - PMESP**

The Company was summoned to present defense in an administrative process filed by the Military Police of the State of São Paulo (Sanctioning Process CSMAM-002/30/16) which challenges the possibility or not of partial or total non-compliance with the agreements for acquisition and supply of 98,465 (ninety-eight thousand, four hundred and sixty-five) firearms, type pistol, models 24/7 and 640, between years 2007 and 2011.

In relation to Sanctioning Process CSMAM-002/30/16, the Company considers possible some monetary loss, but since it is an administrative process and is at Discovery phase, we are presently unable to estimate the values, and the sanctions to which the Company is subject are provided for in article 87, Federal Law 8666/93, combined with article 81, State Law (SP) 6544/89.

Also, on December 19, 2017, the Company received service of judicial process where the State of São Paulo requires the rescission of agreements of supply of submachine guns entered into in 2011 with the Military Police of the State of São Paulo and the return of the value paid at the time, of R\$ 21.7 million, plus inflation adjustment and other legal consequences.

The Company has already presented its defense in the lawsuit and, according to its legal advisors, lawsuit was qualified as possible loss.

#### **Djibouti**

There is a prosecution in secrecy of Justice at the 11<sup>st</sup> Federal Court of Porto Alegre, against two former employees of the Company and one citizen from Yemen, due to alleged irregular sale of firearms in year 2013 to the Government of Djibouti, whose final destination would be Yemen. Although the Company and its officers are not parties to the process, as soon as the Company became aware of the prosecution, potentially harmful to its reputation, required and had deferred its qualification in the process, as interest party, with the purpose of clarifying to the Judge the facts known by it and providing the necessary support to the investigations. There are no estimated effects or provisions concerning the subject that are or should be duly reflected in the quarterly information of the Company on this date.

#### **Public Civil Action - Attorney General of Sergipe for the Federal Public Ministry**

The Company became aware of the filing by the Attorney General of Sergipe for the Federal Public Ministry of a Public Civil Action against Taurus and also against the Federal Government (Brazilian Army), before the Judge of the 2nd Federal Court of the Judiciary Section of Sergipe. The requests are related to alleged defects in a few models of firearms produced by Taurus.

## Taurus Armas S.A.

### Notes to the financial statements

In the Public Civil Action, the Federal Public Ministry pleads that i) Taurus be prevented from trading a few models of firearms in Brazil; ii) Taurus make a national recall for replacement and/or indemnity according to the market value of these models of firearms and iii) the Federal Government be prohibited from applying the restriction of import of models that have local similar products, under penalty of daily fine of R\$ 10 (ten thousand reais).

Finally, the Federal Public Ministry pleads i) the conviction of the Federal Government to the obligation to modify R-105 or to issue a new substitutive regulation that does not create regime of monopoly of sales of firearms in Brazil, which adversely affects the free competition; ii) the conviction of Taurus to the obligation to make a national recall within 20 days, for the repair, replacement and/or indemnity according to the market value of these models of firearm; (iii) the conviction of the Federal Government and Taurus to the payment of collective pain and suffering in amount to be defined by the judge, not below R\$ 40.000 million.

In preliminary injunction, the Judge of the 2nd Federal Court of the Judiciary Section of Sergipe determined the obligation by Taurus to submit a detailed plan of recall of the supposedly defective models of firearms within 90 days. The preliminary injunctions for suspension of the trading of the models allegedly defective and prohibition of restriction of import of firearms by the Federal Government were rejected by the Judge.

In the judgment of the bill of review filed by Taurus, The Federal Court of the 5th Region suspended the effectiveness of the decision granted by the Judge of the 2nd Federal Court of the Judiciary Section of Sergipe, with respect to the part that establishes the submission, by Taurus, of a plan of recall within 90 (ninety) days. Currently, the lawsuit is under the submission of proofs.

In the opinion of Taurus' legal advisors, the present lawsuit is classified as risk of possible loss.

#### ***Public Civil Action – Public Prosecutor's Office of the Federal District and Territories***

The Public Ministry of the Federal District and Territories ("MPDFT") filed a Public Civil Action with motion for injunction against the Company due to alleged supply to the Civil Police of the Federal District of pistols that had not met the contractual specifications. Through this action, it requires that Taurus should be convicted to indemnify for material damages caused, temporary suspension of the Company to bid and contract with the Public Management for a period of 2 years, as well as to pay for collective pain and suffering in the amount of R\$ 10,000 (ten million reais). Based on injunction, it required the freezing of the claimed values in the Company's bank accounts.

The Judge of the 8th Civil Court of Brasília rejected the motion for injunction of freezing of the Company's bank accounts in the absence of evidence as to the alleged need of immediate freezing of the values claimed in the lawsuit. The MPDFT filed bill of review, received by the Notable Federal Regional Court of the 1st Region without suspensive effect and, on this date, awaits judgment.

After the submission of contestation by Taurus, the Judge accepted the request of qualification of the Federal District as co-plaintiff of the MPDFT and determined the forwarding of the lawsuit to one of the Public Treasury Courts of the Federal District, since it considers itself unqualified to judge the action. Lawsuit is now in the 1<sup>st</sup> Court of the Federal District's Public Revenue Service.

Taurus will perform all the measures necessary to prove that the allegations are unjustified and that the products traded do not have manufacturing defects. The Company believes that the risk of loss on this lawsuit is classified as possible.

# Taurus Armas S.A.

## Notes to the financial statements

### Burrow case

The lawsuit filed by William Burrow, Oma Louise Burrow, Suzanne M. Bedwell and Ernest D. Bedwell against Taurus and its subsidiary Braztech International L.C in the United States is at Discovery phase (equivalent to the pre-trial phase in the Brazilian civil process). The lawsuit is being discussed in the State of Florida (USA) before the U.S. Court for the Southern District of Florida and claims alleged flaws in certain models of revolvers produced by Taurus under Rossi brand.

On January 8, 2019, the Board of Directors approved the conclusion of an agreement to end the lawsuit. The federal judge in charge of the process granted final approval to the agreement on September 6, 2019. The decision passed res judicata and the agreement became final.

The Company recorded in 2018 a provision for loss in the amount of US\$ 5,560, that corresponds to the expected loss in the case, according to the signed agreement.

Taurus management understands that this agreement is a big step towards minimizing financial impacts on the Company and giving management more stability. This decision corroborates the restructuring process that Taurus is going through, seeking sustainable profitability and improvement of financial and operational indicators.

## 24. Financial instruments

Company Management determines the classification of its non-derivative financial assets and liabilities at the time of their initial recognition, pursuant to the criteria set forth in CPC 48 / IFRS 9 when the characteristics of the Company's cash flows and business model in the management of financial assets. Financial liabilities are measured according to their nature and purpose.

### a) Fair value vs. book value

The fair values of the financial assets and liabilities, together with the book values presented in the balance sheet, are as follows:

|   | 12-31-2019     |                | Consolidated<br>12-31-2018   |                |
|---|----------------|----------------|------------------------------|----------------|
|   | Amortized cost | Fair value     | Amortized cost               | Fair value     |
|   |                |                |                              |                |
| <b>Liabilities measured by the amortized cost</b> |                |                |                              |                |

| Debentures  | 74,919         | 74,919         | 9,450                        | 88,866         |
| Foreign exchange advances                         | 78,196         | 78,196         | 43,795                       | 43,795         |
|   | <b>680,860</b> | <b>684,210</b> | <b>658,049</b>               | <b>727,613</b> |

Due to the short-term cycle, it is assumed that the fair value of cash and cash equivalents,

## **Taurus Armas S.A.**

### Notes to the financial statements

receivables, suppliers, other accounts payable and advances from receivables are close to its book values.

The fair value that is determined for disclosure purposes is calculated based on the present value of principal and future cash flows, discounted at market interest rate on the date of presentation of the quarterly information.

According to the hierarchical classification criteria for determining fair value: Level 1: prices quoted (not adjusted) in active markets, net and visible to identical assets and liabilities and identical which are accessible at the measurement date; *Level 2*: prices quoted (that can be adjusted or not) for similar assets or liabilities in active markets; and Level 3: assets and liabilities that are not based on observable market data (unobservable inputs); the Company classified the fair values of financial instruments as Level 2.

The Company does not have remuneration benefit policies for key Management personnel that may be characterized as: post-employment benefits, termination benefits, share-based remuneration or other long-term benefits.

### Operations of directors and board members

Directors and board members hold a non-material percentage of Company's voting shares.

### Sureties among related parties

Loans and financing are guaranteed by promissory notes, fiduciary assignment of machinery and equipment, and real estate mortgages.

The parent company granted sureties to Taurus USA in the amounts corresponding to R\$ 139,529 (R\$ 126,799 as of December 31, 2018) and Taurus Helmets Ltda granted the corresponding amount of R\$ 716,435 (R\$ 707,294 as of December 31, 2018) to Taurus Armas S.A..

## Taurus Armas S.A.

### Notes to the financial statements

## 26. Discontinued operations

A discontinued operation is an item of the Group's business including operations and cash flows that can be clearly distinguished from the rest of the Group and that:

- represents a separate major line of business or geographical area of operations;
- It is part of a single coordinated plan to sell a separate major line of business or geographical area of operations; or
- is a subsidiary acquired only for the purpose of resale.

The classification as a discontinued operation is made upon its disposal or when the operation fails to meet the criteria for being held for sale, if this occurs before.

When an operation is classified as a discontinued operation, the comparative statements of income and the statement of added value are restated as if the operation had been discontinued since the beginning of the comparative period.

In March 2018, the Board of Directors unanimously authorized the offer of the helmets business – represented by Taurus Helmets Indústria de Capacetes Ltda and Taurus Blindagens Nordeste Ltda. – to the market.

Although intra-group transactions were eliminated from consolidated income, Company Management chose to attribute the elimination of transactions between continued and discontinued operations prior to disposal in order to reflect the continuity of these transactions after disposal, since Management believes that the information is useful to users of the financial statements. To achieve this presentation, Company Management – starting from the results of discontinued operations – eliminated inter-segment sales (and costs resulting from these sales, less unrealized profits) made prior to its disposal.

### (a) Net income (loss) from discontinued operations

|   | 12-31-2019        | 12-31-2018      |
|---|-------------------|-----------------|
| Net sales   | 82,488            | 84,647          |

\*Share closing quotation on the date indicated, multiplied by the total shares outstanding on that date.

### b) Equity valuation adjustments

#### Deemed cost

The equity valuation adjustments' caption in shareholders' equity includes adjustments for the adoption of deemed cost of fixed assets on the transition date for IFRS. Amounts recorded in equity valuation adjustments are totally or partially reclassified to full or partial income (loss) for the year upon depreciation of items related to or disposal of assets.

#### Fair value of property investments

As described in note 14, in 2016 the Company recognized the fair value of investment property, according to the Brazilian accounting practices (BR GAAP) and international accounting practices (IFRS). The initial recognition of investment property at fair value is made in the shareholders' equity. After the initial recognition, the fair value should be reviewed on annual basis and the changes in fair value are recognized directly in the result for the year.

#### Accumulated translation adjustments

Accumulated translation adjustments include all foreign currency differences deriving from the translation of financial statements of foreign operations.

## Notes to the financial statements

### 28. Net operating revenue

According to CPC 47 / IFRS 15, revenue is recognized when the client obtains control of the products. If a reasonable estimate of potential return of goods cannot be made, when allowed, income recognition is deferred until the return period expires or until a reasonable estimate of the returns can be made.

Pursuant to CPC 47 / IFRS 15, revenue for these contracts will be recognized to the extent that it is probable that there will be no significant reversal in the amount of accumulated income. Consequently, for agreements in which the Company is unable to make a reasonable estimate of the returns, revenues are expected to be recognized prior to the expiry of the period of return or before it is possible to make a reasonable estimate. A reimbursement liability and an asset for recovery will be recognized for these contracts and will be reported separately on the balance sheet.

The Company adopted CPC 47 / IFRS 15 using the cumulative effect method (with no practical expedients), with initial application of the standard recognized on initial date (that is, January 1, 2018). Consequently, the information presented for 2017 was not restated and, accordingly, it was presented as formerly reported according to CPC 30 / IAS 18 and related interpretations.

No amount was determined to be adjusted on January 01, 2018 as a result of adopting this pronouncement.

#### Sales tax

Sales revenues are subject to the following taxes and contributions, and the following basic rates:

|   | <b>Rates</b>    |
|---|-----------------|
| Value-added tax on sales and services–ICMS      | 0–25%           |
| IPI - Excise tax                                | 0–45%           |
| Contribution for social security funding–COFINS | 3% and 7.6%     |
| Social integration program–PIS                  | 0.65% and 1.65% |

|                             | <b>Consolidated</b> |                   | <b>Parent company</b> |                   |
|-----------------------------|---------------------|-------------------|-----------------------|-------------------|
|                             | <b>12-31-2019</b>   | <b>12-31-2018</b> | <b>12-31-2019</b>     | <b>12-31-2018</b> |
| Sales of goods              | <b>1,249,604</b>    | 988,839           | <b>882,429</b>        | 711,707           |
| Rendering of services       | 4                   | 16                | 4                     | 16                |
| Total gross revenue         | <b>1,249,608</b>    | 988,855           | <b>882,433</b>        | 711,723           |
| Sales tax                   | <b>(241,822)</b>    | (118,123)         | <b>(166,571)</b>      | (60,295)          |
| Refunds and rebates         | (8,205)             | (25,455)          | (7,420)               | (24,797)          |
| Total net operating revenue | <b>999,581</b>      | <b>845,287</b>    | <b>708,442</b>        | <b>626,631</b>    |

Because the Company's sales have short-term maturity, and the effects of the calculation of adjustment to present value are immaterial, the Company no longer presents the calculation of present value in its financial statements.

### 29. Expenses per type

|   | <b>Consolidated</b> |                   | <b>Parent company</b> |                   |
|---|---------------------|-------------------|-----------------------|-------------------|
|   | <b>12-31-2019</b>   | <b>12-31-2018</b> | <b>12-31-2019</b>     | <b>12-31-2018</b> |
| <b>Expenses according to the role</b>             |                     |                   |                       |                   |
| Cost of products sold                             | (658,952)           | (537,660)         | (475,827)             | (427,021)         |

### 30. Net financial income (loss)

Financial income (loss) mainly includes revenues from interest on investment funds, changes in fair value of assets measured at fair value through profit or loss and gains on hedge instruments. The financial income (loss) is recognized within the accrual period.

### 31. Insurance coverage

The Company adopts the policy of contracting insurance coverage for assets subject to risks to cover eventual claims, considering the nature of its activity. The adequacy of insurance coverage is determined by the Company's management, which considers it sufficient to cover any losses.

As of December 31, 2019, insurance coverage for the Company was as follows:

|                  | <b>Consolidated</b> | <b>Parent company</b> |
|------------------|---------------------|-----------------------|
| Material damages | 487,504             | 80,000                |
| Civil liability  | 209,884             | 15,000                |
| Loss of profit   | 276,055             | 276,055               |

### 32. Provision for product warranty

The Company quantifies and records an estimate for the costs related to the warranty, according to historical and current repair costs. The provision for product warranty ensures that the repair costs in case of replacement or repair do not affect the operating results for the periods in which these additional costs occurred. Therefore, amounts are recorded for the accrual basis of accounting. At December 31, 2019 and December 31, 2018, the balances are shown as follow:

|                         | Consolidated |            | Parent company |            |
|-------------------------|--------------|------------|----------------|------------|
|                         | 12-31-2019   | 12-31-2018 | 12-31-2019     | 12-31-2018 |
| Domestic market         | 14,560       | 14,122     | 13,092         | 12,654     |
| Foreign market          | 9,104        | 9,360      | -              | -          |
| Total                   | 23,664       | 23,482     | 13,092         | 12,654     |
| Current liabilities     | 18,105       | 17,903     | 13,092         | 12,654     |
| Non-current liabilities | 5,559        | 5,579      | -              | -          |

### 33. Subsequent events

#### Definitive agreement – Creation of a Joint Venture between Jindal and Taurus

In alignment with the expansion of its business, Taurus Armas starts a partnership through a Joint Venture with a major player in India. The confirmation of this operation occurred through the signing of a contract that took place on January 27, 2020, during the commercial mission of the Brazilian government, which confirms the importance of this operation between the two countries.

Jindal Group is India's largest steel manufacturer and one of the ten largest in the world, holder of an annual turnover of more than US\$ 24 billion and with 200 thousand employees in the world, is the partner of Taurus, with 51% of the capital of the joint venture, while Taurus has 49% of the capital. The Joint Venture will set up an arms factory in India, where it will be produced rifles, pistols and revolvers, for civil, public security and military markets.

The conclusion of this agreement is an important step in Taurus' global strategy and will place the Company in a prominent position in the world arms market, which proves that the current management of the Company is aligned with the worldwide movements of the sector. Taurus continues its restructuring process based on sustainable profitability, quality and improvement of financial and operational indicators, in addition to a strong investment in developing new products and technologies.

#### Possible impacts of the new Coronavirus – COVID-19

The Company is monitoring the possible risks related to Covid-19 that may affect its activities. To date, there has been no significant change registered in relation to our suppliers and, also, no high risk of significant economic damage for Taurus has been quantified.

Dependence on imported products is low and foreign suppliers of more relevant components and inputs can also be replaced by domestic suppliers. For items considered critical, the Company has inventory that meets its needs for a period of about 5 months.

With regards to exports, which accounts for most of its revenue, Taurus is working on schedule for the delivery of its products, especially in the North American market. In the

## **Taurus Armas S.A.**

### Notes to the financial statements

domestic market, until now, there has been no change in the behavior of customers and distributors.

Several measures are being adopted with the objective of reducing as much as possible the exposure to the potential of our team of employees by Covid-19, such as the suspension of almost all business trips, the entrance of suppliers in the factory, the holding of meetings and receiving visits to Taurus facilities. The Company is publicizing and reinforcing the importance of the adoption, by its employees and family members, of preventive hygiene and health care habits.

The analysis performed is based on the evidence found to date, considering the monitoring of risk and evolution of dissemination of Covid-19. However, future events or conditions may cause the Company to review its position and/or affect the normality of operations at its units.

# Independent auditors' report on the individual and consolidated financial statements

## Opinions and Statements / Special Review Report - Unqualified

To the Board members and Directors of Taurus Armas S.A.

São Leopoldo - RS

### Opinion

We have audited the individual and consolidated financial statements of Taurus Armas S.A. ("Company"), identified as Parent Company and Consolidated, respectively, comprising the balance sheet as of December 31, 2019 and the related statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year then ended, as well as the corresponding notes, comprising the significant accounting policies and other clarifying information.

In our opinion, the aforementioned financial statements present fairly, in all material respects, the individual and consolidated financial position of Taurus Armas S.A. as of December 31, 2019, the individual and consolidated performance of its operations and its individual and consolidated cash flows for the year then ended, in conformity with accounting practices adopted in Brazil and International Financial Reporting Standards - IFRS issued by the International Accounting Standards Board - IASB.

### Basis for opinion

Our audit was conducted in accordance with Brazilian and international auditing standards. Our responsibilities, in conformity with these standards, are described in the following section denominated "Auditor's responsibilities for the audit of the individual and consolidated financial statements". We are independent in relation to the Company and its subsidiaries, in accordance with the relevant ethical principles provided for in the Accountant's Code of Professional Ethics and in professional standards issued by the Federal Accounting Council, and we comply with other ethical responsibilities according to these standards. We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our opinion.

### Key audit matters

The key audit matters are those who, in our professional judgment, were the most significant in our audit of current year. These matters were addressed in the context of our audit of the individual and consolidated financial statements as a whole, and in forming our opinion thereon, and, therefore, we do not express a separate opinion on these matters. The issues described below are the main audit issues to be disclosed in our report.

### Provisions and contingent liabilities – tax, labor and civil

See Note 23 of individual and consolidated financial statements

#### Key audit matters

The Company and its subsidiaries are party to tax, labor and civil lawsuits and administrative processes in course before

#### How our audit conducted this matter

Our audit procedures included, without limitation:

- Obtaining of confirmation of amounts under dispute and status with the legal advisors of the Company and its

courts and governmental agencies, derived from the normal course of its business.

The measurement, accounting recognition as a provision, and the respective disclosure of contingencies related to these lawsuits and administrative proceedings, require judgment by the Company and its legal advisors. Changes in the assumptions used by the Company to exercise such significant judgment, or changes in external conditions, including the positioning of authorities, can significantly impact the amount of provision recognized in the individual and consolidated financial statements and the investment value recorded under the equity method in parent company's financial statements; thus, we include such issue in our audit.

subsidiaries concerning judicial or administrative disputes where they appear as claimants or defendants so as to determine the reasonableness of the value recorded and disclosures made in the notes.

- Evaluation, involving our tax and legal experts in certain cases, in the analysis of the premises and foundations included in the main judgments of the Management, as a way of evaluating the adequacy of the amounts and disclosures made in the financial statements.

During our audit, we identified adjustments that affected the measurement and disclosure of the provisions and contingent liabilities, which were recorded by management, as well as certain differences not adjusted, which were considered immaterial. As result of the evidences obtained through the procedures summarized above, we consider that the accounting treatment adopted for contingencies, as well as the related disclosures are acceptable in the context of the individual and consolidated financial statements for the year ended December 31, 2019 taken as a whole.

## Recognition of deferred tax assets

See Note 13 of individual and consolidated financial statements

| Key audit matters  | How our audit conducted this matter  |
|--|--|
| <p>The Group has deferred tax assets derived from deductible temporary differences and tax losses and social contribution tax loss carryforwards, which were accounted for considering a study prepared by the Company and its subsidiaries and approved by the Board of Directors, on the probable amount of taxable income that will be available in the future for the realization of these assets.</p> <p>Future taxable income had the assistance of outside experts contracted by the Company and its subsidiaries, and required the use of estimates and significant judgment. Changes in the assumptions used to exercise this significant judgment may materially affect the amount of these taxes recognized in the individual and consolidated financial statements and the value of investment recorded under the equity method in the financial statements of the parent company, and therefore, we considered this subject significant in our audit.</p> | <p>Our audit procedures included, without limitation:</p> <ul style="list-style-type: none"> <li>• With the assistance of our corporate finance experts, we analyzed the supporting documentation and the main assumptions used by the Company in the projections of future taxable income, as follows: (a) the financial statements and management reports containing historical data; (b) annual budget prepared by the Board of Directors; (c) projections of macroeconomic indicators of the Central Bank of Brazil - BACEN; and (d) we held discussions with management regarding its vision of the business and outlooks for the Company's operations, as well as compared certain data with external sources and evaluated the consistency of these assumptions with the business plans approved by the Board of Directors.</li> <li>• We evaluated the criteria to determine the tax base, accounting classification and analysis of realization of the values of deferred taxes with the assistance of our tax experts;</li> <li>• We also evaluated if the Company's projections indicated, for the portion of unused tax losses and deductible temporary differences recognized as deferred tax assets, the existence of future taxable income, projected as sufficient to permit their realization, as well as we evaluated the fairness of the disclosures included in the notes of the Company.</li> </ul> <p>Based on evidences obtained through above-summarized procedures, we consider as acceptable the recognition of deferred tax assets, as well as related disclosures, in the context of individual and consolidated financial statements for the year ended December 31, 2019 taken as a whole.</p> |

## Impairment of goodwill and fixed assets

See Notes 16 and 17 to the individual and consolidated financial statements

| Key audit matters  | How our audit conducted this matter   |
|--|---|
| <p>The Company has presented recurring losses and cash generation difficulty. With the identification of these indicators ("triggers") the Company evaluated the existence of impairment concerning its cash generating units ("UGCs") and, to calculate the recoverable value, it used discounted cash flow models prepared by expert contracted by the Company and approved by the Board of Directors, which exercised significant judgments and use of market and business assumptions, including (i) growth of income (including market share and growth of volume), (ii) operating margins and (iii) discount rates applied to projected future cash flows. Due to the relevance and high degree of judgment involved in the process of determination of discounted cash flow estimates of the cash generation units for purposes of evaluation of the recoverable value of such assets, which may materially affect the amount of these assets recognized in the individual and consolidated financial statements and the amount of investment recorded under the equity method in the financial statements of the parent company, we consider this issue significant for our audit.</p> | <p>Our audit procedures included, without limitation:</p> <ul style="list-style-type: none"> <li>• Analysis of the model used by the Company and its subsidiaries to determine the cash generating units.</li> <li>• Analysis of reasonableness of the assumptions used to determine discount rates and recalculation of these fees.</li> <li>• Analysis, with the assistance of our corporate finance experts, of projected future cash flows used in the models so as to determine if they are reasonable in relation to the current economic scenario, to the markets where the Company and its subsidiaries operate, to the future projections of the performance of such markets and to the projections of operating performance of the Company and its subsidiaries.</li> <li>• Assisted by our corporate finance experts, we assessed the sensitivity analysis of the main assumptions adopted in the calculations.</li> <li>• Comparison of projected cash flows, including assumptions related to revenue growth rates and operating margins with the historical performance to evaluate the reasonableness of the Company's projections.</li> <li>• Evaluation of the fairness of disclosures included in the financial statements.</li> </ul> <p>Based on the evidences obtained through the procedures summarized above, we consider that, with respect to its recoverability, the value of goodwill and of fixed assets, as well as the related disclosures are acceptable in the context of the individual and consolidated financial statements for the year ended December 31, 2019 taken as a whole.</p> |

## **Other issues**

### **Statements of added value**

Individual and consolidated statement of added value (DVA) for the year ended December 31, 2019, prepared under responsibility of Company's management, and presented as supplementary information for IFRS purposes, were submitted to audit procedures carried out together with the audit of Company's financial statements. In order to form our opinion, we evaluated whether these statements are reconciled with the financial statements and accounting records, as applicable, and whether their form and content are in accordance with the criteria defined in CPC 09 Technical Pronouncement - Statement of Added Value. In our opinion, these statements of added value were prepared, in all material respects, in accordance with the criteria defined in this Technical Pronouncement and are consistent in relation to the individual and consolidated financial statements taken as a whole.

### **Other information accompanying individual and consolidated financial statements and the auditors' report**

The Company's management is responsible for such other information that comprise the Management Report.

Our opinion on the individual and consolidated financial statements does not include the Management Report and we do not express any form of audit conclusion on such report.

Regarding the audit of individual and consolidated financial statements, our responsibility is to read the Management Report and, in doing so, consider whether this report is, in a material way, inconsistent with the financial statements or with our knowledge gained in the audit or otherwise appears to be materially misstated. If, based on the works performed, we conclude that there is a material misstatement in the Management Report, we are required to disclose this fact. We have nothing to report in this regard.

### **Responsibilities of management and governance for the individual and consolidated financial statements**

Management is responsible for the preparation and fair presentation of the individual and consolidated financial statements in accordance with Accounting Practices Adopted in Brazil and with International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In the preparation of individual and consolidated financial statements, management is responsible for assessing the ability of the Company to continue as a going concern, disclosing, where applicable, the matters relating to its going concern and the use of this basis of accounting in preparing the financial statements, unless management intends to wind-up the Company and its subsidiaries or cease its operations, or has no realistic alternative to avoid the closure of operations.

Those charged with governance of the Company and its subsidiaries are the people responsible for overseeing the process of preparation of the financial statements.

## Auditors' Responsibilities for the Audit of the Individual and Consolidated Financial Statements

Our purposes are to obtain reasonable assurance that the individual and consolidated financial statements, taken as a whole, are free from material misstatement, whether caused by fraud or error, and to issue audit report containing our opinion. Reasonable assurance means a high level of security, but not a guarantee that an audit conducted in accordance with Brazilian and international auditing standards always detects any existing material misstatements. Misstatements may be due to fraud or error and are considered material when, individually or taken as a whole, can influence, within a reasonable perspective, the economic decisions of users taken based on these financial statements.

As part of the audit conducted in accordance with Brazilian and international auditing standards, we exercise professional judgment and maintain our professional skepticism throughout the audit. In addition:

- We identified and assessed the risks of material misstatement in the individual and consolidated financial statements, whether caused by fraud or error, we planned and performed audit procedures in response to such risks, and we obtained proper and sufficient audit evidence to support our opinion. The risk of not detecting a material misstatement due to fraud is higher than due to error, since a fraud can involve the act of circumventing internal controls, collusion, falsification, omission or intentional misrepresentations.
- We obtained an understanding of the internal controls relevant to the audit to plan the audit procedures appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal controls of the Company and its subsidiaries.
- We assessed the adequacy of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- We reached a conclusion as to the suitability of Management's use of the accounting basis for going concern and, based on the audit evidence obtained, as to whether there is a material uncertainty regarding events or conditions that could raise a significant doubt regarding the Company's and its subsidiaries' capacity for going concern. If we conclude that there is a material uncertainty, we must highlight the related disclosures in the individual and consolidated financial statements in our report, or include a modification in our opinion if disclosures are inadequate. Our conclusions are based on audit evidence obtained up to the date of our report. However, future events or conditions may lead the Company and its subsidiaries to no longer remain as a going concern.
- We assessed the overall presentation, structure and content of financial statements, including disclosures, and whether the individual and consolidated financial statements represent the underlying transactions and events in a manner consistent with the objective of fair presentation.
- We obtained appropriate and sufficient audit evidence regarding the financial information of the entities or business activities of the group to express an opinion on the individual and consolidated financial statements. We are responsible for directing, supervising and carrying out the group's audit and, therefore, for the audit opinion.

We communicated with the ones responsible for governance with respect to, among other aspects, the planned scope, time of the audit and significant audit findings, including possible material weaknesses in internal controls identified by us during our work.

We also provide to those responsible for governance an statement that we fulfilled the material ethical requirements, including the applicable independence requirements, and report all the possible relationships or issues that could considerably affect our independence, including, when applicable, the respective disclaimers.

Out of matters that were communicated to people responsible for governance, we determined those that were considered as the most significant in the audit of financial statements for current year and that, accordingly, comprise the main audit matters. We describe these issues in our audit report, unless a law or regulation has prohibited the public disclosure of the issue, or when, under extremely rare circumstances, we determine that the issue shall not be reported in our report, because the adverse

consequences from such report may, from a reasonable perspective, exceed the benefits from the report for public interest.

## **TAX COUNCIL OPINION**

The Tax Council of Taurus Armas S.A., in compliance with legal and statutory provisions, examined the Management Report and the Financial Statements for the fiscal year ended December 31, 2019, approved by the Board of Directors in the meeting held on March 26, 2020.

Based on the examinations performed and also considering the Independent auditors' report of KPMG Auditores Independentes, issued with no qualifications on March 26, 2020, and information and clarification received from the Company's management during the year, we conclude that such documents may be examined by the Annual Shareholders' Meeting.
